

LIBERTY II

SAVE £250

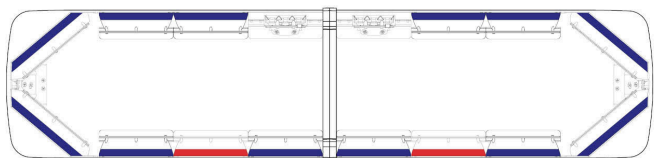

The Liberty II offers cutting-edge optics and enhanced warning power, designed specifically for emergency and commercial fleets that require top performance. It delivers exceptional brightness and clarity, performing reliably even in challenging conditions. Hard-coated lenses protect against harsh weather, UV rays, and road debris, supporting durability where it counts. Compatible with Whelen's WeCanX® system, it allows precise control and customisation of flash patterns and lighting behaviours.
